**ChiGlobal Consulting LLC** is a management consulting firm dedicated to helping organizations transform data into strategy. We support the full data lifecycle—from data collection and analysis to training, workforce development, and financial stewardship—to drive growth, efficiency, and impact.

*Data with Purpose.  
Strategy with Peace of Mind.*

## CORE COMPETENCIES

- Research, Statistical Analysis, Forecasting
- Data Infrastructure & Management
- Custom Tech-Based Solutions
- Data Analytics and Soft Skills Training
- Workforce Development Strategy
- Stakeholder Engagement / Participatory Facilitation
- Human Capital Data Systems & Skills Mapping

## DIFFERENTIATORS

- **Data One-Stop Shop:** Your data should talk to each other, not live in silos. ChiGlobal combines financial services, performance measurement, evaluation, analytics, and advisory into one seamless experience.
- **Holistic Solutions:** ChiGlobal designs adaptive, equitable strategies. Your challenges are multi-dimensional—so are our methods. We employ a comprehensive mix of quantitative & qualitative methods, stakeholder insights, and systems thinking—for quick fixes or a 360° strategy.
- **People-Centered:** Your data should reflect the people behind it. ChiGlobal honors the human story behind every number—because people are the true bottom line and the real drivers of performance, innovation, impact. Our workforce solutions are built with people and employers in mind—from stakeholder facilitation to systems mapping and skills-based hiring analysis.
- **Cross-Sector Expertise:** Experienced across government, nonprofit, & business sectors.

## REPRESENTATIVE WORK

- **Forecasted Human Services Needs Using Predictive Modeling.** We developed data models for a municipal government to anticipate service usage trends, identify geographic disparities, and inform resource allocation. Led to proactive policy shifts and a more equitable service delivery model.
- **Delivered strategic data trainings and dashboards** for federal, state, local, and nonprofit agencies, increasing their internal analytics capacity and efficiency.
- **Designed and facilitated participatory research and focus groups with workforce, education, and employer stakeholders** to evaluate impact, inform strategy, and guide equitable workforce development.
- **Conducted predictive analyses for a municipal initiative to forecast service demand** & optimize resource allocation—results informed budgeting & policy design.
- **Designed a data ecosystem** to help align a \$30M nonprofit's mission w/ its fundraising and operations—this in turn, enhanced member engagement, program evaluation, system integration, and staff data capacity.
